Facilitating Student Success

An interactive workshop
Sept. 21

What: A workshop that will provide practical tools for those who work with first-year students in order to help them persist in their disciplines and be successful.

The presenter: Dr. Landis received his B.S. and M.S. degrees in mechanical engineering from MIT, and his Ph.D. from University of California-L.A. He has been involved extensively in minority student education and curriculum development for engineering students. Read [more...](#)

Dr. Ray Landis, Dean Emeritus of Engineering, Computer Science, and Technology at California State University, and nationally recognized expert on student success

**Friday
Sept. 21, 2-5 p.m.
Ozark Room, Havener Center**

Those who pre-register will receive a free copy of Dr. Landis' book: "Studying Engineering: A Road Map to a Rewarding Career"

TO PRE-REGISTER, email CERTI@MST.EDU

(You do not have to be registered for the ASEE conference to attend, but conference attendees are welcome!)

Sponsored by Missouri S&T Freshman Engineering Office and Center for Educational Research and Teaching Innovation
